Subject: Re: Fwd: [predict]: Upcoming January REDISSE coordination meetings hosted by WAHO (Jan 23-24, 2017)

David,
The Liberia mission mentioned that the Bank will also be coming to Monrovia next week, so we may have our team attend that meeting. We'll find out more from the mission tomorrow.

Cheers,

Hi there PREDICT Global and West Africa folks,

Alisa shared several messages to the predict@ucdavis.edu address this week about an upcoming REDISSE meeting in Guinea on Jan 23 & 24th, details below and schedules attached. Looks like P&R and FAO are participating, would be great to have representation from PREDICT there too if feasible.

Anyone receive word about this from their country teams?

Thanks,

David

This time with the TORs for the full schedule of consults attached.

Hi, all,

I mentioned this at our last staff meeting but wanted to bring to your awareness here. The upcoming (23-24 Jan) country planning REDISSE meetings in Conakry are soon approaching. I haven't seen in the latest from the WB that PREDICT is participating. FAO and P&R will be there. If PREDICT is interested they can reach out to WAHO who is organizing the meeting (see contact for Cesaire below) for more info.

We will have Tamar and Jessica from Guinea attend for USAID, along with Zandra if her schedule allows.

Thanks,
LaToya

Hi, Zandra,

We had a good check-in yesterday with colleagues from the World Bank's REDISSE, One Health, and relevant country backstop teams on overall coordination and updates as the bank approaches Phase 2 negotiations under REDISSE. As you know, Cote d'Ivoire is expected to become a Phase 3 focus country under REDISSE later this year.

We learned WAHO - the regional grant funding recipient under REDISSE charged with overall coordination across countries and TA - will host a series of regional planning meetings (joint country planning, implementing partners meeting, and regional steering committee meeting) in Conakry from 23-26th. FAO, OIE, P&R, WHO are expected to attend some portion of the meetings.

We thought it pertinent for our side to reconnect at country level with WAHO and, if possible, attend the country planning meetings set for **January 23-24**.

Are you interested/available in making the connection with WAHO and, if possible, attending some portion of the upcoming regional consults? The lead on their side for the meetings is Césaire Damien Ahanhanzo [REDACTED]

Attached please see the TOR's for each session.

Thanks,
LaToya
